Changing Currency Code for a specific country in ShopFactory

Merliza N. - 2022-04-05 - Andere Fragen

If the official currency code in your country has changed, contact **ShopFactory Support** to have it changed in a future software release.

To change it immediately in your shop, follow the steps below:

An example used in this article is **NKr** currency code to **NOK**.

- 1. Open Windows File Explorer.
- You can do this by pressing **Win+E** on your keyboard to launch File Explorer immediately.
- Or you can use Windows Search

On the Windows Start screen type the words "*file explorer*" and, when the search results are displayed, press Enter on your keyboard or click or tap the File Explorer result.

Sync File Explorer and other settings						

2. At the "Address: " bar, enter:

C:\Program Files (x86)\ShopFactory V14\ShopFactory

3. Press Enter Key on your keyboard.

ShopFactory

- 4. Locate the file called "**Currency.xml**" file.
- 5. Right-click on the *Currency.xml* file and from the shortcut menu, select '*Edit*'.

6. The Currency.xml file will open in **Notepad** as plain text.

7. Click inside the text area in Notepad and then press *CTRL+Home* simultaneously so you are able to start from the top-most part of the text.

- Click 'Edit' menu » select 'Replace'

As an example, we are changing **NKr** to **NOK**.

- You will see the 'Find and Replace' dialog box, type NKr in the Find what: box
- Type *NOK* within the <u>Replace with:</u> box.
