Changing ShopFactory user interface to a different language

Merliza N. - 2022-05-17 - Pages and Products

ShopFactory detects the language in your **Control Panel - Regional Format** setting. The language for ShopFactory user interface does not use the "*Location*" setting. It detects the language in the Regional Format (Date and Time Formats).

Changing your ShopFactory user interface language:

- In the Windows Search box (beside the Start button), type **region settings**
- From the 'Best match' search results, select "Region Settings (System Settings)"
- Select the dropdown button in the Region Format
- Select the language you want from the dropdown

Settings		- 🗆 X
命 Home	Region	
Find a setting	Country or region	Related settings
	Netherlands	Additional date, time & regional settings
Time & Language	Windows and apps might use your country or region to give you	settings
	local content.

	Regional format data	
	Select Change data formats to switch among calendars, date, and	
	time formats supported by the region.	
	Calendar: Gregorian Calendar	
	First day of week: Monday	
	Short date: 17/05/2022	
	Long date: 17 May 2022	
	Short time: 09:52	
	Long time: 09:52:08	
	Change data formats	

- Click *Close* to apply the changes.

- Close ShopFactory and then open it up again – you will now see the interface in the 'region format' language you selected.
