MARKETEER | How to promote your products on other platforms like eBay, Amazon, Google Shopping ?

Boris ShopFactory France - 2025-09-25 - Add-ons and Backend Systems

With ShopFactory's Marketeer module, you can export your catalog to start promoting your products on eBay, Google Shopping, Amazon, and all other shopping portals to showcase your products.

Marketeer is included in the Gold and Platinum versions of ShopFactory.

This module also allows you to export your product database created on ShopFactory in a universal comma-delimited format, so you can promote your products on any shopping portal that allows product information to be imported.
