## Reseller Tracking Settings in ShopFactory

Elenor A. - 2025-03-19 - [Apps & ShopFactory Cloud](#)

Your online shop can be set up to display retail prices. However, you can also set it up to display 'wholesale' prices as soon as a reseller or wholesaler logs in. Discounted reseller pricing is only displayed once the reseller is logged in.

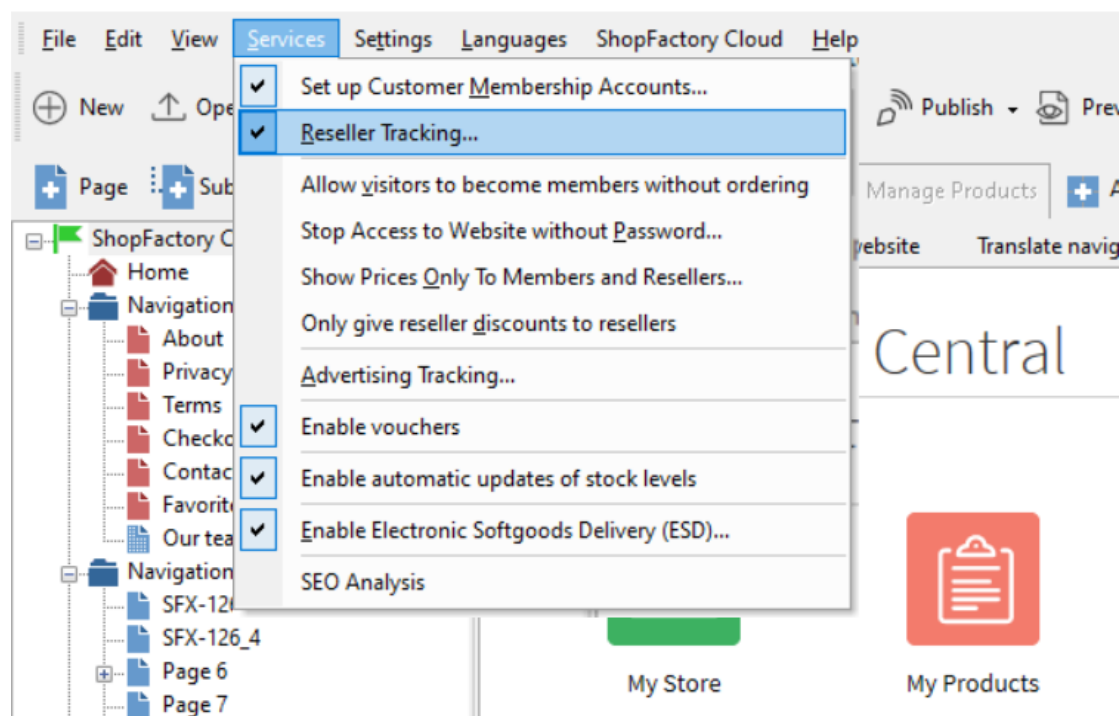

Your resellers will have a username and password – they will need to click on the LOGIN button on your website. As soon as they've logged in, the prices will change from retail product prices to reseller discounted prices.

Different discount levels can be set up.

**Checkpoint:** Your products must have a "**Product Code**," which allows you to group them based on a specific type. You can have multiple products with the same "product code."

Depending on how the merchant wants to control Reseller Tracking, the following options are not mandatory but can be enabled:

- *Stop Access to Website without password* – customers must sign in to enter the shop
- *Show Prices Only to Members and Resellers* – customers must sign in to see the product prices on the website
- *Only give Reseller Discounts to resellers* – resellers will only receive "reseller discount" based on the original product price - *"this option also applies to shop "Members"*

**Stop Access to Website without password:** This option is irrelevant for Reseller Tracking, as the Signup link is always disabled. Resellers must be added via the GlobeCharge function Add Resellers

**Show Prices Only to Members and Resellers:** When this option is ticked anyone who visits your online Shop will be unable to see any prices unless they log in. This is useful for websites intended for Wholesale customers only

**Only give Reseller Discounts to resellers:** *this option also applies to shop "Members"*

When this option is set, Resellers only receive reseller discounts; they do not receive shop-wide or product discounts in combination with their reseller discounts.

e.g. There is a Shop-wide discount of 25%, when this option is ticked the Reseller does not get the Shop-wide discount of 25%, the reseller only gets the discount that applies to his /her reseller account.

**Part I. Set up Reseller Tracking Service in your shop - you need to define the products you want discounted and you can add your resellers as well:**

- Open your shop in ShopFactory
- You must define PRODUCT CODE for the products for which you want to set up reseller discounts.

Edit Product - Properties -> **Product Properties 2** dialog box -> enter Product Code - Ok.

Refer to our KB article,

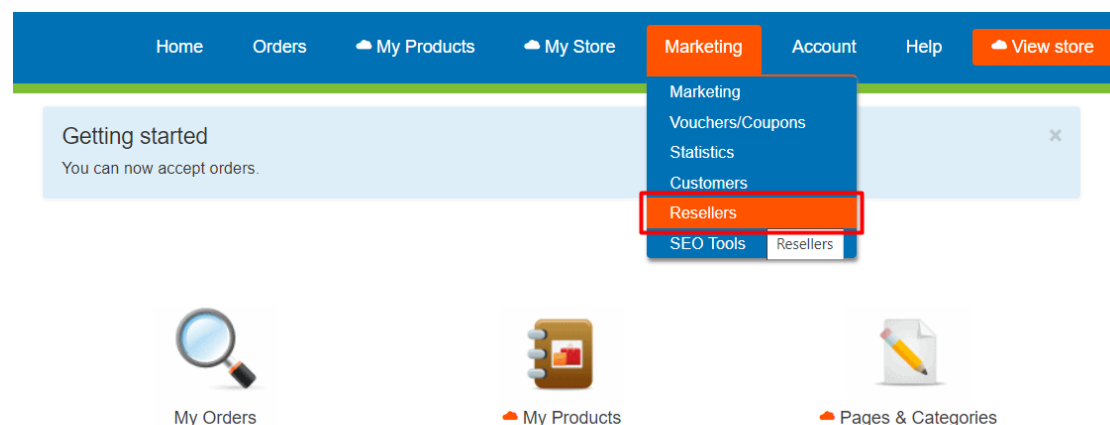

<https://shopfactory.deskpro.com/en-GB/kb/articles/en-how-to-apply-product-code-to-an-entire-page-department-or-some-products-using-product-template>

- From the **Services** menu -> tick the "**Reseller Tracking**" option - this will only enable the service in your shop. You must continue onto the succeeding steps to completely setup different reseller discounts, add resellers, etc.

**Part II. Set up Reseller discounts in the SF Cloud interface**

- At the ShopFactory Central page, click on the **My Orders** button to connect to the ShopFactory Cloud interface.

- Then click on Marketing -> Resellers

- Scroll down until you see the Discount code (reseller), the Product Code you have set in the Product Properties 2 dialog in ShopFactory must be added in the Discount Settings section

Make sure you enter a discount for the "All Others" field if you just want to give reseller discount for products that aren't added individually in the discount settings.

Global Reseller Discount Settings

## Discounts

A reseller or customer discount code will be applied to all products with the matching discount or product code. The Base discount is applied to all other products.

### Base discount (all other products):

% 5.00

### Discount codes:

Discount code (reseller)	%
P1	5.50
P2	6.00
alpha1	10.00
alpha2	15.00
alpha3	15.00
alpha4	10.00
test1	5.00
test2	6.00

### When saving apply discounts to:

- ☒ All resellers (Overwrite existing values)
- ☐ New resellers only
- ☐ Only for resellers set to default discount settings

### Do you want to offer free shipping?

- ☒ No
- ☐ Yes, if they spend more than

\$ 99.00

These are the default settings that apply to all your resellers. You can change these settings for each Reseller at the Add Reseller Level.

**Product Code:** The Product code entered here must match exactly the product code entered in ShopFactory

You can set to 10 or more Product Discount levels - you can use these to apply to different categories or departments.

**Shipping:** You can offer free shipping if they purchase over a certain amount, this will apply per order.

Complete the discount settings and then you can start adding your resellers by clicking on the "Add Reseller" option

## Account Setup

Manage resellers -> click Add Reseller button

[My Store](#) [Marketing](#) [Account](#) [Help](#) [View store](#)

[Add reseller](#) [Upload resellers](#) [Back](#)

Results per page 25

You can create the username and password for your resellers

## Reseller details

Reseller details | Discount settings

Username : *	Password :
<input type="text"/>	<input type="password"/>
language : English	Re-type password : <input type="password"/>

Here you can set up the Preferred language for your Reseller. This will apply to his order confirmation emails and to his Reseller Login (when he logs in via the Reseller login link on [www.globecharge.com](http://www.globecharge.com))

## Reseller Details

Reseller details			↑
First name : *	Phone :	Country :	
<input type="text"/>	<input type="text"/>	<input type="text"/>	
Last name : *	Email : *	State :	
<input type="text"/>	<input type="text"/>	N/A	
Company name :		City :	
<input type="text"/>		<input type="text"/>	
Company / Tax file number :		House number :	
<input type="text"/>		<input type="text"/>	
		Street :	
		<input type="text"/>	
		Postcode :	
		<input type="text"/>	

The email and address details should be correct. When a Reseller logs into your shop and then places an order these details are automatically populated in the checkout page/order form.

Discount Settings for Individual Reseller: note that different resellers can have different discount levels

## Discounts

A reseller or customer discount code will be applied to all products with the matching discount or product code. The Base discount is applied to all other products.

☐ Use default discounts settings ☒ Enter custom discounts

### Discount codes:

Discount code (reseller)	%
DISC1	10
DISC2	5
DISC3	20

The discount settings above are the default settings that apply to all resellers; however, you now have the opportunity to add, remove or update these settings for this reseller.

For example, you do not want this reseller to get *DISC3* - so you simply remove it from this screen.

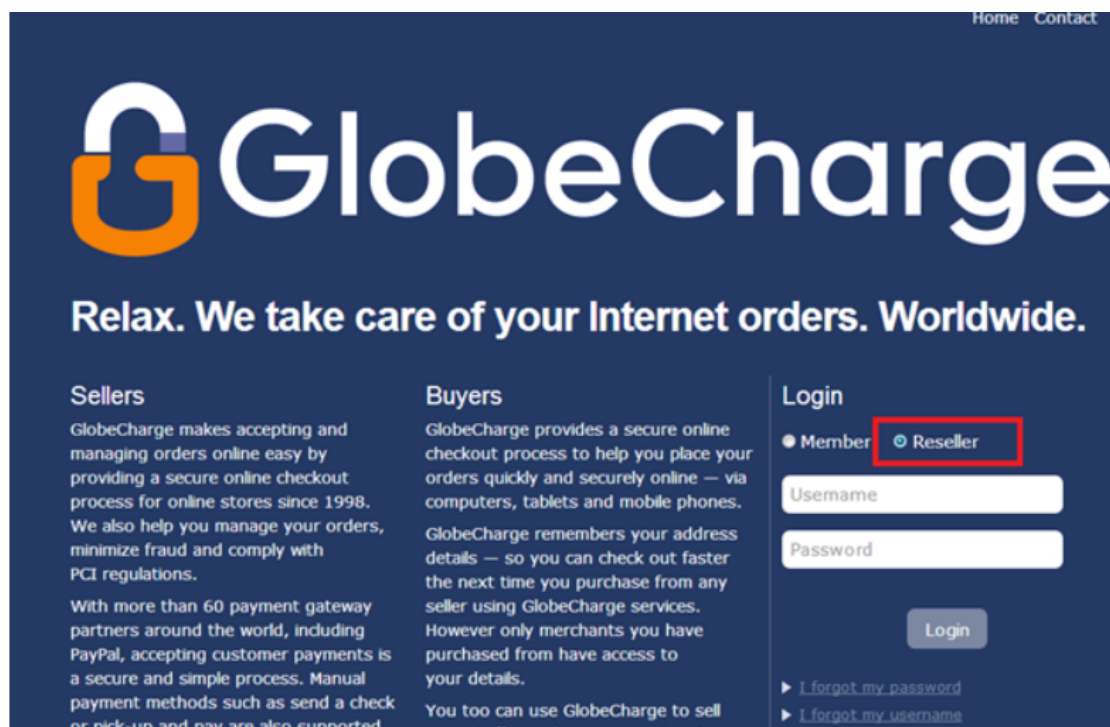

This means that even though DISC3 is set up in Shopfactory this customer will never receive 15% off on those products. He will only receive the "all others" discount instead (if that has been set up). In the example above if you remove DISC3 he will only get 2.5%. You could simply change the discount amount for DISC3 instead.

- Once you are happy with all the settings, click Save

- Your customer will now receive an email with his login details. Make sure you have set up **Reseller Tracking** => **Email Settings** - this is the message your Reseller will receive with their login details.

Your Reseller can now log in to your Shop by clicking on the LOGIN link and they can see the discounted prices. They can then place orders and receive appropriate reseller discounts.

- They can keep track of their orders by logging into their Reseller account in Globecharge [www.globecharge.com](http://www.globecharge.com) -> click on the **Reseller** Button and enter Reseller login details

Alternatively, you can use the old interface to set up the Reseller Tracking service.

Setting up Reseller discounts in the Total Care backend system

- At the ShopFactory Central page, click on the **My Orders** button to connect to the ShopFactory Cloud interface. (When you are redirected to the SF Cloud interface, click on the "Return to the ShopFactory Total Care interface" link on the top.)

- Then click on **Services** -> **ResellerTracking**

- Under **Reseller Tracking**, click on **Settings** -> the Product Code you have set in the Product Properties 2 dialog in ShopFactory must be added in the Discount Settings section as shown in the screenshot below:

Make sure you enter a discount for the "**All Others**" field if you just want to give a reseller discount for products that aren't added individually in the discount settings.

#### Global Reseller Discount Settings

Product code	Discount
<input type="text"/>	<input type="text"/> %
<input type="text"/>	<input type="text"/> %
<input type="text"/>	<input type="text"/> %
<input type="text"/>	<input type="text"/> %
<input type="text"/>	<input type="text"/> %
<input type="text"/>	<input type="text"/> %

**ALL OTHERS**  %

Do you want to offer free shipping?:  
☒ No  
☐ Yes, if they spend more than €

These are the default settings that apply to all your resellers. You can change these settings for

each Reseller at the Add Reseller Level.

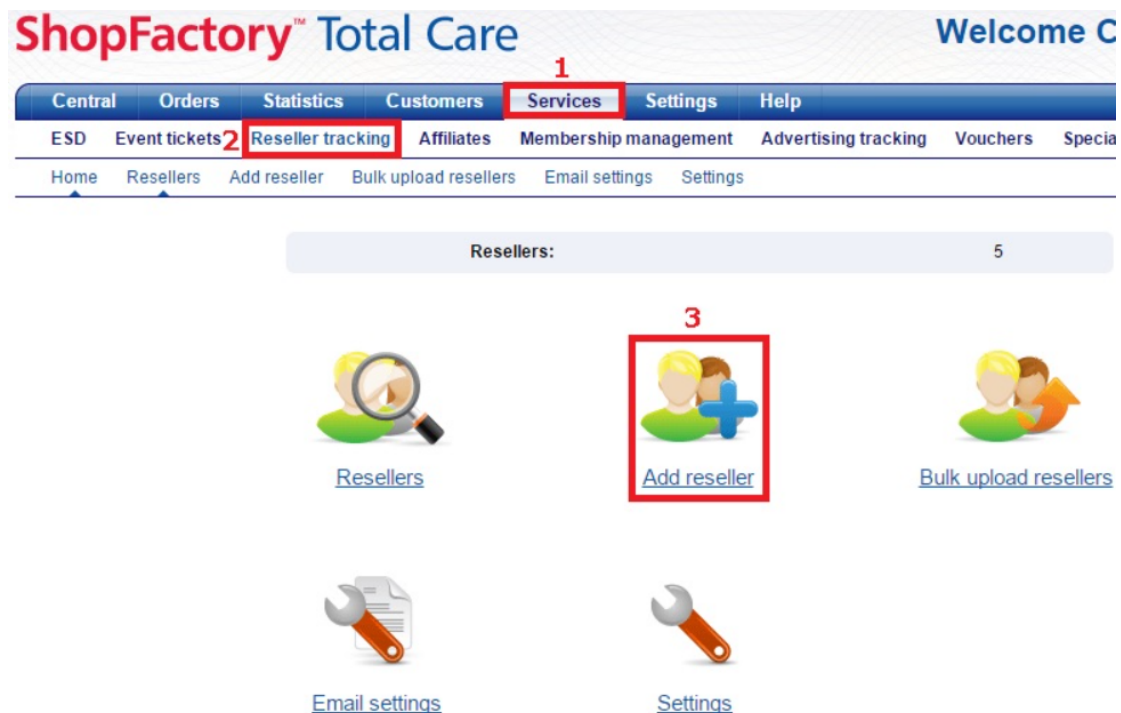

**Product Code:** The Product code entered here must match exactly the product code entered in ShopFactory

You can set to 10 or more Product Discount levels - you can use these to apply to different categories or departments.

**Shipping:** You can offer free shipping if they purchase over a certain amount, this will apply per order.

Complete the discount settings and then you can start adding your resellers by clicking on the "Add Reseller" option

#### Account Setup

Total Care will automatically create a new username and password for you. (You may change the password if you prefer.)

Here you can set up the Preferred language for your Reseller. This will apply to his order confirmation emails and to his Reseller Login (when he logs in via the Reseller login link on [www.globecharge.com](http://www.globecharge.com))

#### Company Details

The discount settings above are the default settings that apply to all resellers; however, you now have the opportunity to add, remove, or update these settings for this reseller.

For example, you do not want this reseller to get *DISC3* - so you simply remove it from this screen. This means that even though DISC3 is set up in Shopfactory this customer will never receive 15% off on those products. He will only receive the "all others" discount instead (if that has been set up). In the example above if you remove DISC3 he will only get 2.5%. You could simply change the discount amount for DISC3 instead.

- Once you are happy with all the settings, click Finish

- Your customer will now receive an email with his login details. Make sure you have set up **Reseller Tracking** -> **Email Settings** - this is the message your Reseller will receive with their login details.

- Your Reseller can now log in to your Shop by clicking on the LOGIN link and they can see the discounted prices. They can then place orders and receive appropriate reseller discounts.

- They can keep track of their orders by logging into their Reseller account in Globecharge [www.globecharge.com](http://www.globecharge.com) -> click on the **Reseller** Button and enter Reseller login details

#### "Become a reseller" signup link

- Login to <https://www.globecharge.com>

- Click on Services menu -> Reseller Tracking -> Settings

- Scroll down and enter the required details including adding a banner link image

- Click NEXT

- COPY the custom HTML to allow resellers to sign up from your website.

The screenshot shows the 'Reseller signup link code' page in the Shopfactory admin interface. The page has a navigation bar with tabs: Central, Orders, Statistics, Customers, Services, Settings, Help, and Logout. Below the navigation bar, there are sub-tabs: ESD, Event tickets, Reseller tracking, Affiliates, Membership management, Advertising tracking, Vouchers, and Special Products. The 'Reseller tracking' tab is selected. The page title is 'How to setup your system for Auto sign up of resellers'. The main content area is titled 'Reseller signup link code' and contains a text box with the following code:

```
Code for your website to let Affiliates sign up. Add this code to your website:

http://testing-aud.shopfactory.com/

<script type="text/javascript">
var qsAddNewReseller="";ids=["mid","rid","aid"];
for(var n=0;nn=ids.length;n<nn;n++){var
myid=getARMID(ids[n],true);if(myid)qsAddNewReseller+="&"+ids[n]+"="+myid;}
document.writeln("<a href='http://www.globecharge.com/webshop/addnewreseller.cgi?'
+\"uid=testing-aud&rrid=1&id=84281\"
+qsAddNewReseller+\"' target=\"_blank\"><b>Become a reseller</b></a>");
</script>
```

- Paste it in your SF shop i.e. Homepage
