Translate custom HTML page contents and custom website contents

Merliza N. - 2020-10-15 - [Add-ons and Backend Systems](#)

Translating custom HTML contents in your pages and products

Language Link add-on is available in ShopFactory Gold and Platinum plans.

- Open shop in ShopFactory
- Click LANGUAGES menu
- Select "**Translation languages**" and tick all the languages you want to enable in your shop.
- From the language toolbar, you also need to enable "*Copy Base Language Value*". A border around it indicates it is ON.

If this button is set to *ON*, all items which have not been translated into another language, will have the texts in default language copied across.

- At the left-tree menu, select the page you want to translate
- Click "**Translate content**" from the LanguageLink toolbar
- Click *Translate* button on the right column
