Changing Currency Code for a specific country in ShopFactory

Merliza N. - 2022-04-05 - Miscellaneous Settings

If the official currency code in your country has changed, contact <u>ShopFactory Support</u> to have it changed in a future software release.

To change it immediately in your shop, follow the steps below:

An example used in this article is *NKr* currency code to *NOK*.

1. Open Windows File Explorer.

- You can do this by pressing *Win+E* on your keyboard to launch File Explorer immediately.

- Or you can use Windows Search

On the Windows Start screen type the words "*file explorer*" and, when the search results are displayed, press Enter on your keyboard or click or tap the File Explorer result.

2. At the "Address: " bar, enter:

C:\Program Files (x86)\ShopFactory V14\ShopFactory

- 3. Press Enter Key on your keyboard.
- 4. Locate the file called "Currency.xml" file.
- 5. Right-click on the *Currency.xml* file and from the shortcut menu, select '*Edit*'.

6. The Currency.xml file will open in **Notepad** as plain text.

7. Click inside the text area in Notepad and then press CTRL+Home simultaneously so you are able to start from the top-most part of the text.

- Click 'Edit' menu » select 'Replace'

As an example, we are changing *NKr* to *NOK*.

- You will see the 'Find and Replace' dialog box, type NKr in the <u>Find what:</u> box
- Type *NOK* within the <u>Replace with:</u> box.

- Click 'Find Next' button and it will highlight NKr.
- Click 'Replace' button to replace it.
- Continue clicking 'Find Next' button and 'Replace' (you will do this approximately 14 times)
- Click Save
- 8. Open your shop in ShopFactory.
- 9. Enable 'Rebuild All' by selecting **Settings** menu
- 10. Save and Preview your shop in Chrome or MS Edge external browser.
- 11. Publish your shop again.
