Copy 'Related Products' in bulk with Product Templates feature

Merliza N. - 2021-09-06 - [Pages and Products](#)

In ShopFactory, you can setup cross-promoted products that targets buyers of a product with an offer to purchase a related product. For example, a customer buying a shirt can see some 'Related Products' of a pair of pants and shoes that coordinate with the shirt. This aims to target buyers during the purchasing process with suggestions on related products.

A) Bulk update products with "Related Products"

1: Setup a product with the list of "Related Products" on a department

- At the left-tree menu, select Homepage or any department in Navigation 2
- Click **Add product** button
- Click *Properties -> Related Products*
- Add the products you want to cross-promote

Refer to this article for detailed steps, [Adding Related products \(Cross promotions\)](#)

2: Move the product to "Product Templates"

- Select the product and click CTRL+X (Cut)
- At the left-tree menu, select *Product Templates*
- Paste (CTRL+V)

3: Bulk copy 'Related Products' to multiple items in your shop

- Go to **List of Contents** or select a department/page where you want these Related Products to be applied.
- If you are on a page/department, click "*Manage Products*" to switch to Items List mode.
- Select the products by pressing CTRL key and clicking each of the products
- Right-click on the selection -> at the shortcut menu, click **Copy Values from a product template to all selected products**

The screenshot shows a product management interface with a list of products on the left and a detailed view on the right. A context menu is open over the product list, and a red arrow points to the option '2. Copy values from a product template to all selected products'.

- Tick "Related Products" checkbox then click OK

- Click **Yes** to confirm you want to proceed

The screenshot shows the 'Copy values from product template' dialog box. It contains a list of product templates and fields to copy. A confirmation message is displayed: 'If you click on Yes the selected fields will be copied to all the products you have selected (13). This operation cannot be undone automatically. Do you want to proceed?' with 'Yes' and 'No' buttons.

Product Template: ☐ Catalog number: [stk30011-temp]

Fields to copy:

- ☐ Allow decimal quantities such as 1.0: [0]
- ☐ Manufacturer code: []
- ☐ Distributor code: []
- ☐ Price code: []
- ☐ Product Code: []

☒ Delete all options in target products

Number of products selected: 13

Buttons: OK, Cancel, Help

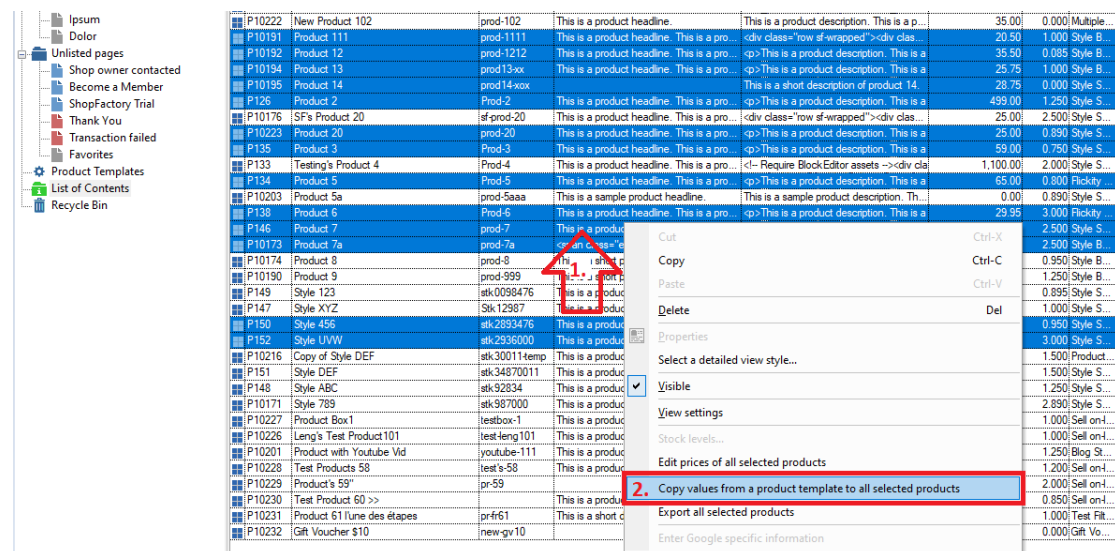

- Click OK

- Save and preview in External browser; check the product detailed page to verify the Related Products section has been populated

- Publish your shop again so the changes are uploaded online.

B) Removing all 'Related Products' in several products

- Create a product that doesn't have related products by clicking on **Add Product** button
- Move this product to "Product Templates" category
- Go to List of Contents or to the department/page and then select all the products you want to bulk delete the "Related Products"
- Select the products by pressing CTRL key and clicking each of the products
- Right-click on the selection -> at the shortcut menu, click **Copy Values from a product template to all selected products**

- Tick "Related Products" checkbox then click OK
- Click **Yes** to confirm you want to proceed and then click OK
- Save and preview in External browser; check the product detailed page to verify the Related Products section doesn't show
- Publish your shop again so the changes are uploaded online.
