Enable UPS shipping provider in my shop

Elenor A. - 2021-12-08 - [Shipping and Taxes](#)

Note: To enable UPS as your shipping provider, you will need to have an account with [UPS](#)

Once your UPS account is created, set up your shop:

1. Open your shop in ShopFactory, click -> Central -> Shipping Charges
2. On the Shipping Settings window choose "**Use a provider**" and Click Next
3. On the next window you will see a list of integrated Shipping providers, choose "**Combine Multiple Shipping providers**" and click Next. It will be the first option. This option allows you to use multiple realtime shipping providers such as UPS and FedEx.

4. You will then see the UPS Setup window

On this screen you enter your UPS User ID and Password, Access Key. If you want to offer cheaper rates, you can enable "negotiated rates" and enter your Account Number. Before you can use the Negotiated rates in your shop you will have to contact your UPS account manager and ask him to activate the UPS negotiated rates for your account, otherwise it will not work.

UPS Realtime Shipping Settings

To use UPS for shipping you will need to have a user ID, password and access key obtained from UPS. If you do not already have one, you will need to [click here](#) to go to UPS to get one, then return to this page when you have this information.

Please provide your account details

User ID: ups123
Password: password
Access Key: BBA9490231832B70
Account number: 9FR267 ☒ **Negotiated rates**
Pickup type: Daily Pickup
Select shipping countries
AFGHANISTAN, ALBANIA, ALGERIA, AMERICAN SAMOA, ANGOLA, ANGUILLA, ANTIGUA AND BARBUDA, ARGENTINA, ARMENIA, ARUBA, Argentina, Austria, Belgium, Brazil, Canada, Chile, China, Colombia, Costa Rica, Denmark
Which UPS methods do you wish to use?
☒ UPS Worldwide Express ☒ UPS Worldwide Expedited
☒ UPS Worldwide Express Plus
Autosplit packages if weight is more than: 50 (Max: 150 LBS or 68KG)

If you want to use the negotiated rates (cheaper rates) - ensure you:
1. enter your UPS Account Number and then
2. tick "Negotiated rates" checkbox

To generate your Access Key if you do not have it already, please follow the steps provided in the FAQ article,

<https://shopfactory.deskpro.com/en-GB/kb/articles/en-getting-ups-access-key-en>

Select the UPS shipping methods you would like to use in your shop and then click **Save Settings**.

5. You need to make sure all your products have weight defined and that the weight type is as specified in the UPS screen above (i.e. Kg for Australia, Pounds for USA, etc.)

6. To change the weight type, select *Settings => Global Settings* from the menu toolbar.

7. Click on *Settings for this Website => **Miscellaneous*** in the left tree and then at the bottom, choose the appropriate weight type from the list "*Specify weight in*" -> click OK.

If the incorrect weight type is chosen, for example grams instead of Kgs, UPS will not work and an error will occur at Checkout

The screenshot shows the 'Global Settings' dialog box with the 'Miscellaneous' section selected in the left-hand tree. The 'Specify weight in' dropdown menu is highlighted with a red rectangle and is currently set to 'kg'. Other settings visible include checkboxes for 'Search On', 'Mail to a friend', 'Favorites', 'Show Home link', 'Don't allow buying', 'Add to Basket dialog', 'Allow buying related products', 'Show Weight', 'Show Catalog Number', 'Show Discount', 'Show Breadcrumbs', 'Customer must tick Terms', 'Automatic customer language detection', 'Customer location detection', 'Show product details in Checkout', 'Customers who bought this item also bought', 'Apply product discounts to Options', and 'Product discounts: Free products are only granted once'. At the bottom, there are buttons for 'OK', 'Cancel', and 'Help'.

Setting	Value
Remember customer shopping basket for (days):	7
Round currencies to the nearest:	▼
Autosplit page if it contains more products/paragraphs than:	25
Specify weight in:	kg
Delivery time	5-7 Days
