Form Field Display Errors - Windows 11 - Browser Cache

Level 1 Support - 2026-08-17 - [Design and Customizations](#)

We have identified a minor issue which can occur on some Windows 11 PC's in certain cases.

If you encounter an issue with "Editing Form Fields" inside ShopFactory - it may be related to your - Browser Cache -.

Symptoms include:

1. Fields inside any given "Wizard" window may display duplicate content which can not be changed (as shown in the images below).
2. You are unable to EDIT the content when clicking into the form field containers.

Here you assign the taxes you must collect from your customers manually.

In most cases ShopFactory can assign taxes automatically, depending on the setting selected when setting up a tax.

- > **Name:** The name of the tax you have selected in the LEFT window.
- > **Tax rates:** The rate applying to the selected tax in %.
- > **Location:** The location where the tax applies.
- > **Name:** The name of the tax you have selected in the LEFT window.
- > **Tax rates:** The rate applying to the selected tax in %.

To RESOLVE this issue:

Go to your primary browser and "CLEAR THE BROWSER CACHE".

(NOTE: If using multiplied browsers, you may need to clear the cache in each one until the issue resolves).
