

How can I set a minimum purchase quantity per Product?

Merliza N. - 2021-12-08 - Pages and Products

This is achieved in ShopFactory through Stock Levels (Stock Control) by setting the minimum order quantity.

- Open shop in Shopfactory
- Click Central drop-down and select Stock Level
- A message will appear. Stock Control is disabled. Do you want to Enable it? Yes or No. Click on YES.
- On the Stock Control Window, click the box "Stock Control Enabled" and Click OK

IMPORTANT: If you don't want to show stock levels, you can choose NONE for Stock Display type.

The screenshot shows the 'Stock control' dialog box. The 'Stock control enabled' checkbox is checked and highlighted with a red box. The 'Stock display type' dropdown menu is also highlighted with a red box and set to 'None'. Below, there are fields for 'Message' and 'Threshold' for 'Out of stock', 'Low stock', and 'In stock'.

	Message	Threshold
Out of stock	Out of stock	0
Low stock	Low in stock	<= 10
In stock	In stock	> 10

- You will see a list of products in the window Available Stock - List of Contents

Note: Only products with Unique Catalog numbers will display here, if nothing is displayed you need to go back and edit your products, add a catalog number to each of them.

- Double click on the Product you want to edit the minimum/maximum order quantity in both Minimum and Maximum column

Name	Catalog number	Stock	Min. order quant...	Max. order quantity	Out of stock message
