How to add a holiday notice i.e. Christmas closure on your website

Closing for the holidays?

There are several areas in your website where you can show your buyers a holiday bulletin notice.

You can even turn off buying in your shop if you don't wish to accept orders during the holidays. To temporarily close your store to the general public, simply go to *Settings* menu -> *Global Settings* -> *Settings for this website* -> *Miscellaneous* -> then tick "**Don't allow buying**" -> Ok -> Save and publish your shop.

The screenshot shows the 'Global Settings' window. On the left, a tree view shows 'Global Settings' expanded, with 'Settings for this Website' > 'Miscellaneous' selected, indicated by a yellow highlight and the number '1.'. The main area shows various settings. A checkbox labeled 'Don't allow buying' is checked and highlighted with a yellow box, with the number '2.' next to it. At the bottom, the 'OK' button is highlighted with a blue box, with the number '3.' next to it. Other settings visible include 'Search On', 'Mail to a friend', 'Favorites', 'Show Home link', 'Add to Basket dialog', 'Allow buying related products', 'Show Weight', 'Show Catalog Number', 'Show Discount', 'Show Breadcrumbs', 'Customer must tick Terms', 'Automatic customer language detection', 'Customer location detection', 'Show product details in Checkout', 'Customers who bought this item also bought', 'Apply product discounts to Options', 'Product discounts: Free products are only granted once', 'Remember customer shopping basket for (days):' (set to 7), 'Round currencies to the nearest:' (dropdown), 'Autosplit page if it contains more products/paragraphs than:' (set to 40), 'Specify weight in:' (set to kg), and 'Delivery time' (set to 5-7 Days).

There are 3 ways to allow your customers to access your website and simply show a holiday bulletin notice:

1. Add a notice via Shop-wide discount message section

- Open your shop in ShopFactory
- Click *Central* dropdown button -> select "*Shop-wide discounts*"
- Enter your holiday notice or promotions in the message box:

SF Shop wide discounts

Shop wide discounts are discounts applying to all products in your shop or to the entire order placed by a customer.

To select a discount method click on its name.

Of course you can also schedule special discount times automatically.

3. On your homepage, use a block content in the description section

Refer to our KB article: *Using the integrated block editor in ShopFactory*

<https://shopfactory.deskpro.com/en-GB/kb/articles/en-using-the-new-integrated-block-editor-in-shopfactory>

The screenshot displays the ShopFactory integrated block editor. The top menu bar includes options like File, Edit, View, Services, Settings, Languages, ShopFactory Cloud, and Help. Below the menu, there are tabs for Page content, Introduction, Custom Contents, and Custom Website contents. The main editing area shows a Christmas-themed notice with the text: "MAY YOU ENJOY A PEACEFUL, SAFE, AND HAPPY CHRISTMAS THIS YEAR." and "HOLIDAY NOTICE". A red arrow points to the "Drag a block to the content area" instruction. The bottom section of the editor shows a placeholder for product listings: "Here we list products when you are not editing".
