How to reset the "Digit grouping" and "Decimal symbol" to show correct Product Price in the shop

Elenor A. - 2021-11-26 - Pages and Products

- Go to Control Panel
- Double click "Regional and Language Options"
- At the Regional Options tab, click "Additional settings..." button
- At the Number tab, click **Reset** button

The image shows a 'Customize Format' dialog box with a title bar containing a globe icon and a close button. It has four tabs: 'Numbers', 'Currency', 'Time', and 'Date'. The 'Numbers' tab is active. Inside the dialog, there is an 'Example' section showing 'Positive: 123,456,789.00' and 'Negative: -123,456,789.00'. Below this are several settings, each with a label and a dropdown menu: 'Decimal symbol:' (comma), 'No. of digits after decimal:' (2), 'Digit grouping symbol:' (comma), 'Digit grouping:' (123,456,789), 'Negative sign symbol:' (minus), 'Negative number format:' (-1.1), 'Display leading zeros:' (0.7), 'List separator:' (comma), 'Measurement system:' (U.S.), 'Standard digits:' (0123456789), and 'Use native digits:' (Never). At the bottom, there is a text instruction: 'Click Reset to restore the system default settings for numbers, currency, time, and date.' To the right of this text is a 'Reset' button, which is highlighted with a red rectangle. At the very bottom are three buttons: 'OK', 'Cancel', and 'Apply'.

Customize Format

Numbers Currency Time Date

Example

Positive: 123,456,789.00 Negative: -123,456,789.00
