How do I add or edit meta tags in my shop?

Merliza N. - 2021-12-08 - Optimización para motores de busqueda

- Open shop in SF
- In the Left Tree, click on the Page you want to edit meta tags on
- Click EDIT PAGE from toolbar
- Click PROPERTIES
- On left tree, select SEO details
- Click Enter Details for search engines (meta tags). On this window you can enter a Page Title,

Description, Search words and you can change the page file name from D1 to

D1_mypagename.html for example

| Page Properties Wizard - Page 4 | | × |
|---|---|---|
| Page Properties 2 Page design Product/Paragraph design Link Image group 1 Link Image group 2 Link Image group 3 Link Image group 3 Add Custom Contents | Enter details for search engines (Meta Tags) HTML Page Title (shown at top of Browser window) Page 4 Description | F |
| Available Stock B SEO Details Q Product search filters Cookies / GDPR | Page filename: D2056 SFX-LITE_1 .html | |
| | | |
| | OK Cancel Help | |

- You can repeat this for every page on your shop / website
