When you start selling your products or service, you'll need to provide an email address to receive your Order Notification emails every time an order is completed.

1. Open up your shop in ShopFactory.
2. From the menu at the top select **Central** dropdown and click **Contact Details**.

3. Locate the "**Email (for Orders)**" field and enter your email address - this is where your Order notification emails will be sent.

The screenshot shows the 'Page Properties Wizard - Contact' dialog box. The 'Contact details' tab is selected. The 'Email (for orders)' field is highlighted with a red box and contains the text 'test@3d3.com'. Other fields include Country (Australia), User profile (SF Sample Shop\_3d3.com), Name (SF Sample Shop), Company name (3d3.com), Address, Suburb, City, State (Victoria), ZIP (3150), Phone, Fax, and Home page.

NOTE: Multiple email addresses can be entered, separated by a **comma** symbol , not a semi-colon ;
