## Products: How do I change the order of products?

Merliza N. - 2021-12-08 - [Páginas y productos](#)

Products are added to the page in the order that they are created. However, you may wish to display the products in a different order such as alphabetically or popularity. You can easily change the order of products on a page by doing the following:

1. In ShopFactory, click on the page in the left hand side tree menu that contains the products that you wish to change the order for.
2. Switch to the List view by clicking on MANAGE PRODUCTS from toolbar
