- Close ShopFactory

- Open Windows Explorer and navigate to the ShopFactory installation folder, by default, it should be at **C:\Program Files (x86)\ShopFactory V14\ShopFactory\Common Files**

- Locate the **alias.ini** file -> right click on it -> Open with... -> Notepad

- Search for these lines:

****

Sets application Logo: 0 disables Logo and 1 enables logo

AppLogo=1

- Change the 1 into a 0 (zero) and save the file.

AppLogo=0

- Open your shop in ShopFactory and go to SETTINGS menu and enable **Rebuild All**

- Save and Preview your shop in External browser

- Republish your website with the option "Publish All" enabled at least for this session

ShopFactory logo should not show anymore in your online shop.
