A. SOFORT Überweisung Project Set up and configuration

Set up a Project

After the registration of your merchant account, you have to set up a new project. You can find it "Projects/New project".

1) Go to www.sofort.com

2) Click "Online provider"

3) Login using your merchant account details

4) Click "Projects/New Project"

Once you've created project, you should get a project ID and then save it;

5) Edit your project

In Basic settings -> General settings, tick "***Testing mode***" checkbox

Enter the Thank you URL

Successful transaction link should be:

http://www.myshop.com/contents/lang/thankyou.html

where,

<myshop> is your own domain

<lang> is your shop primary language, for example, ***de*** or ***en-us***

Enter the "Transaction Failed" URL

Aborted transaction link should be:

http://www.myshop.com/contents/lang/unsuccessful.html

where,

<myshop> is your own domain

<lang> is your shop primary language, for example, ***de*** or ***en-us***

Automatic redirection should be ticked.

6) In Extended settings & Notifications

Add new HTTP notification, choose http

Tick "**Activated**"

Select **POST** radio button

Enter this Notification URL: (Callback URL)

https://www.globecharge.com/webshop/directebanking_callback.cgi

7) In Extended settings -> Project password and input check

* Set your project password

* Tick *Activate* input check

* Hash algorithm: select ***MD5***

As shown in the screenshot below:

8) In ShopFactory, click ***Central*** dropdown button -> "Payment Methods Accepted" -> go through the setup wizard. In your payment setting, select your Country (merchant account country), and make sure you enter the correct information for all three parameters:

· **Customer ID**

· **Project ID**

· **Project password**

- Complete the setup wizard.

For ShopFactory Total Care users, simply click on *Central* dropdown -> Payment Methods Accepted -> complete the setup wizard.

- Save and preview your shop in external browser
- Place a test order to simulate ordering in your shop
- Once your shop is ready to go '**live**' – go back to the payment setup wizard, *Central* dropdown -> Payment Methods Accepted -> **untick** the "***Testing Mode***" checkbox.
- Save and publish your shop so that the changes are uploaded online.
