EN-Setup PayPal Plus as a payment option in my shop

Merliza N. - 2021-12-08 - Parámetros de pagamiento

PayPal Plus for Germany is now supported in ShopFactory.

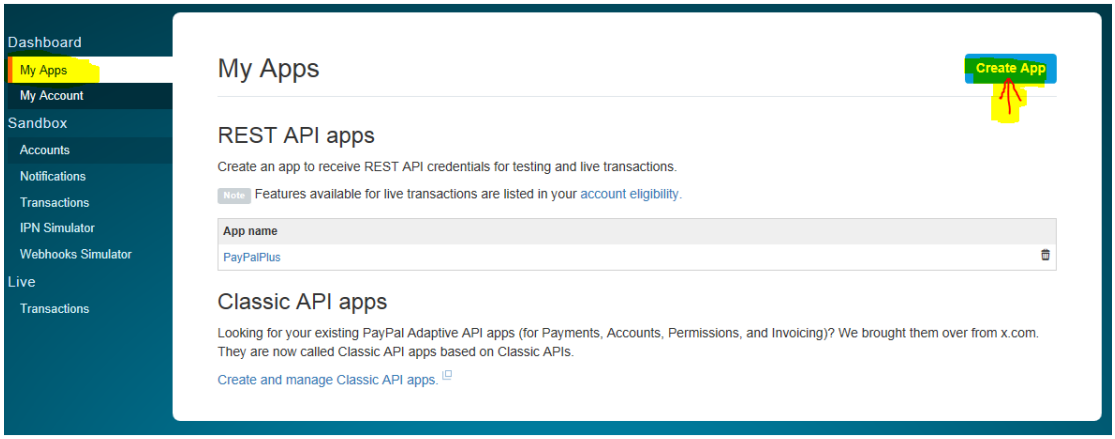

1. Setup PayPal Plus merchant account

To get a PayPal Plus merchant account, you need to sign in to PayPal developer account.

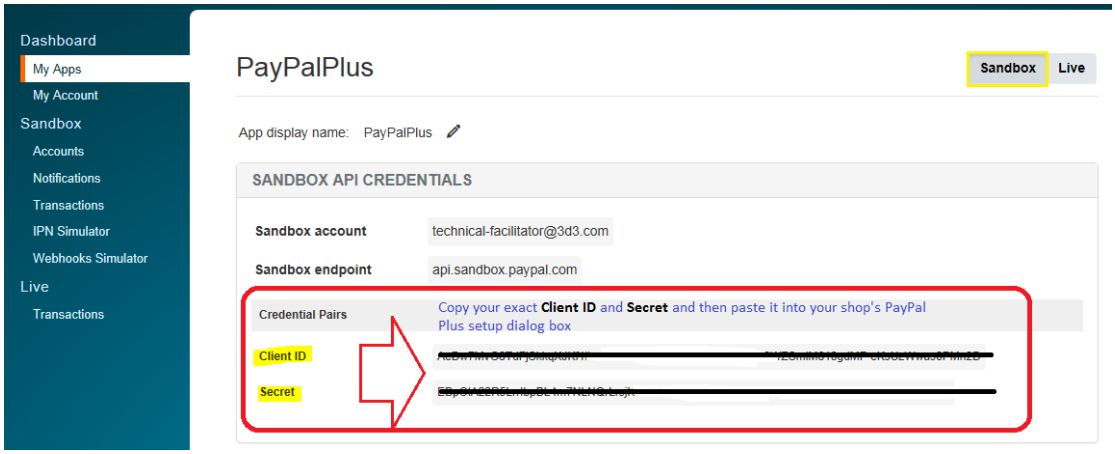

- Log in at https://developer.paypal.com/

- Go to *DASHBOARD* -> **My Apps**

- Click on the "Create App" button if you don't have one yet to be able to get the credential pair: **Client ID** and **Secret**

Once the app has been created, click on the specific App name to view your **Client ID** and **Secret** details –

Basically, your account must be tested on Sandbox first. Once it's all ok – you can switch to live (just

change to **live** credential pair in My Apps page).

****You may need to copy the Client ID and Secret details for the live environment and paste the details into your shop's payment setup dialog for PayPal Plus.*

2. Enable 'PayPal Plus' in your shop

- Open your shop in ShopFactory

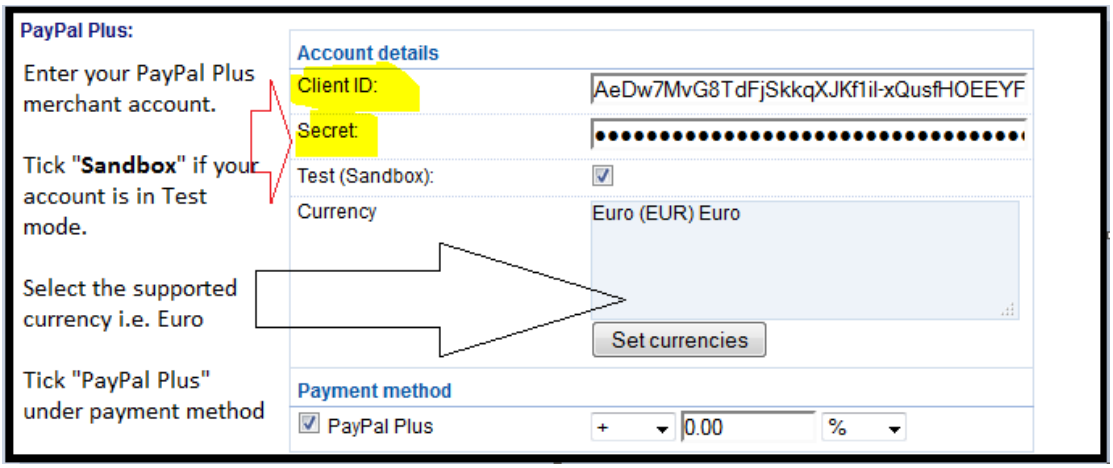

- Click on Central dropdown -> Payment methods accepted

- Tick "PayPal Plus"

- Click Next

- Enter your PayPal Plus merchant account details as requested:

  - Client ID
  - Secret
  - Tick Sandbox if account is still in Test mode
  - Set currency you accept
  - Tick 'PayPal Plus' under payment method

- Click Next

- Click Finish

- Save and publish your shop
