

## EN-Show payment service provider name during checkout

Elenor A. - 2021-12-08 - Parámetros de pagamiento

ShopFactory has "Show payment provider name during checkout process" option at the ShopFactory Cloud / Total Care interface that can be enabled by merchants if they want the payment provider logo to show during checkout.

### **To set this up, you will need to do the following:**

- Open shop in ShopFactory
- Click on MY ORDERS button to connect to the SF Cloud interface -> select "Return to ShopFactory Total Care interface" link -> click on **Settings** menu -> **Account Settings** -> **Settings** section:
- Tick "**Show service provider name during checkout process**" and then click Submit button to save the changes.

Email (for orders):

**Settings:**

- Allow delivery to a separate shipping address
  - Show shipping address form
- Allow customers to add comments to order
- Express checkout (includes order tracking and customizable checkout)
- Allow customers to track order
- Notification email in shop language
- Show import duty warning during checkout
- Show service provider name during checkout process
- Ignore incomplete orders
- Payment surcharge (Tax)
- Show total weight during checkout

(If customers do not provide payment details to complete their order, then the order will be ignored and no stock will be deducted if you use real-time stock control)

- Merchant will need to open the payment setup wizard again: Central -> **Payment Methods Accepted** -> tick the payments you can accept for example, PayPal Pro HOSTED - tick all the card payments your merchant account can accept such as: Visa, Mastercard, Carta Aura, Postepay, PayPal. Click Next until Finish. Complete the payment setup wizard.

PayPal Pro Hosted:

Tick the payment methods you can accept:

Account details	
Username/Email Address:	<input type="text" value="sales@3d3.com"/>
Authorization of payment only:	<input type="checkbox"/> <small>When you select this function, your customers will not pay you immediately. PayPal will only verify the ability of the customer to pay. When you want the money to be paid, you have to log into your PayPal account and tell PayPal to withdraw the money from the customer.</small>
Non-PayPal account:	<input checked="" type="checkbox"/> <small>Buyer does not need to create a PayPal account to check out and landing page for Non-PayPal account.</small>
Currency	<input type="text" value="Australian Dollar (AUD) A\$"/> <input type="button" value="Set currencies"/>
Payment method	
<input checked="" type="checkbox"/> Carta Aura	+ ▾ <input type="text"/> % ▾
<input checked="" type="checkbox"/> Mastercard	+ ▾ <input type="text"/> % ▾
<input checked="" type="checkbox"/> PayPal	+ ▾ <input type="text"/> % ▾
<input checked="" type="checkbox"/> Postepay	+ ▾ <input type="text"/> % ▾
<input checked="" type="checkbox"/> Visa	+ ▾ <input type="text"/> % ▾

- Publish shop again.

- Place a test order in your shop. During checkout, when a customer selects VISA for example, it will display the Payment Provider logo and more information on the basket page:
