Translate custom HTML page contents and custom website contents

Merliza N. - 2020-10-15 - Complementos y sistemas backend

Translating custom HTML contents in your pages and products

Language Link add-on is available in ShopFactory Gold and Platinum plans.

- Open shop in ShopFactory

- Click LANGUAGES menu

- Select "**Translation languages**" and tick all the languages you want to enable in your shop.

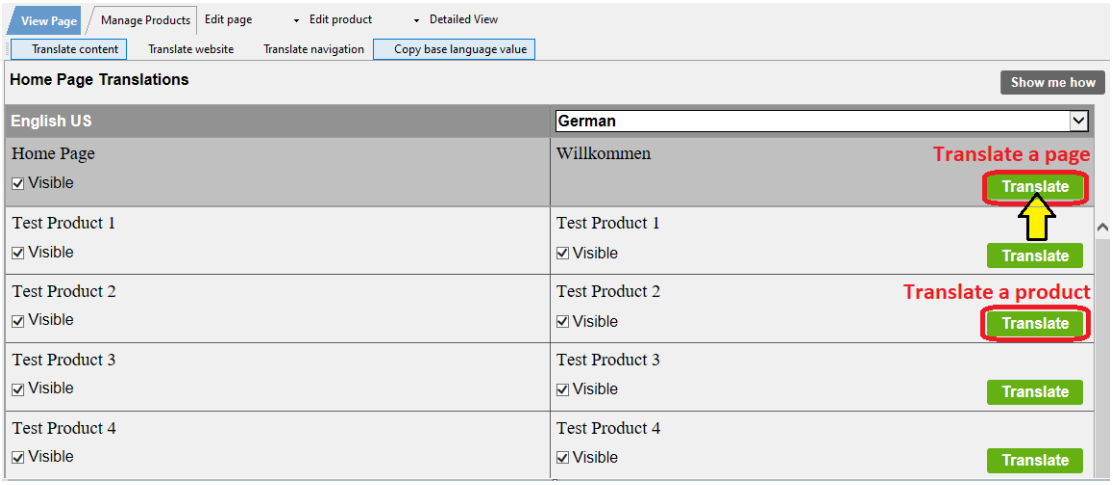

- From the language toolbar, you also need to enable "*Copy Base Language Value*". A border around it indicates it is ON.

If this button is set to *ON*, all items which have not been translated into another language, will have the texts in default language copied across.

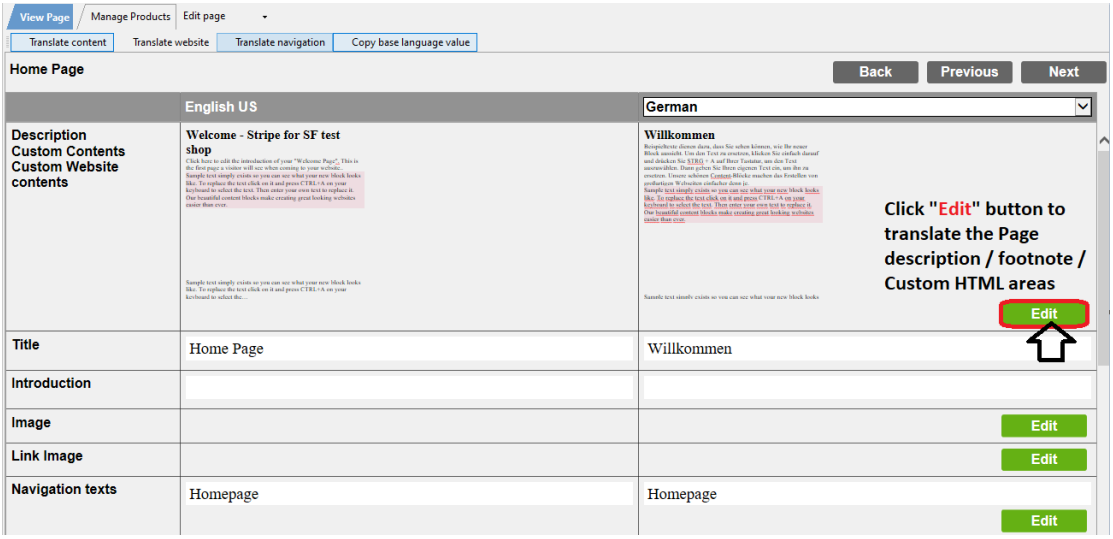

- At the left-tree menu, select the page you want to translate

- Click "***Translate content***" from the LanguageLink toolbar

- Click *Translate* button on the right column

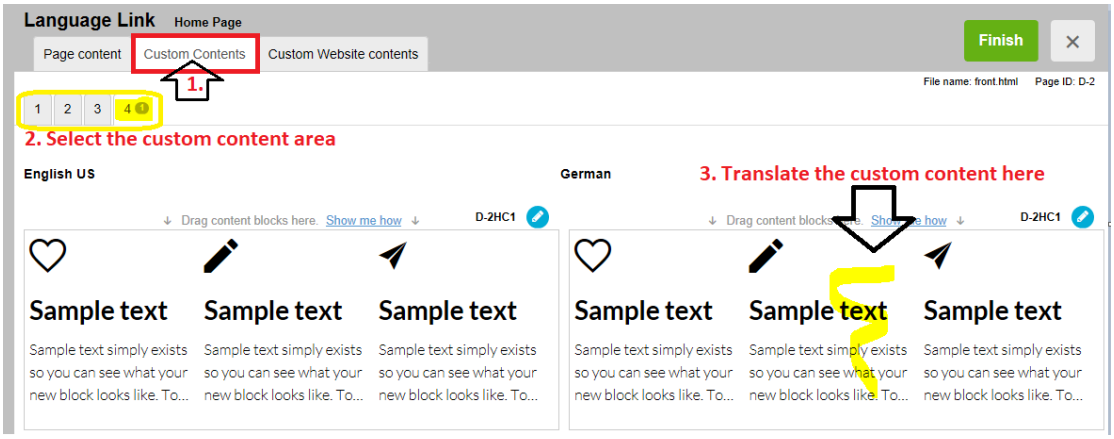

- At the Page **description/custom html contents/Custom website contents** section, select ***Edit*** button on the right column

- Select "Custom Contents" tab on the top-left and below the tab, select the custom HTML area location

**For your site-wide custom HTML contents, select "Custom Website contents" tab*

- Translate the Custom HTML contents on the right column

- Click Finish

- Click "***Translate contents***" button to go back to Normal mode
