## Apply "Product code" to an entire page/department or some products using "Product Templates" feature

Elenor A. - 2021-09-06 - Pages and Products

## **Product Templates**

Product Templates allow you to copy values from a template to many products at the same time to save you much work and effort. Just change one template and copy the values instead of making the same changes multiple times.

You can adjust all your products at once - all the products listed on a page or just the products you have selected. The most commonly copied values are prices, options and discounts - but of course you can copy any supported value.

You can almost any value associated with a product: simply by assigning the values to a template and then copying them to any product you want.

## 1: Create a product template

Look for Product Templates at the left-tree window.

Now copy any product you want to use as template into this folder or add a new product in this category.

The product becomes a template and you can copy its values to any product you want.

You can edit the valued of the template just like any other product. Changes you make to a template do not affect any other product - until you copy them across.

- Click Edit Product from the toolbar

- Click **Properties** -> "**Product Properties 2**" and add a **Product Code** as shown in the below screenshot:

odi	Product Wizard - ProductCode ABC123	}		×
on't uct	Product Properties 2 Nore images So Discounts	Delivery time		
	C Options & choices C Options & choices C Options C Opt	Product category Quantity unit Allow decimal quantities such as 1.5	· · · · · · · · · · · · · · · · · · ·	
Juc	Image: Available Stock           650         Related products           ∅         Link information           ♥         Detailed View Style	Base Price Quantity Base price	0.000 ~	
	Q SEO Details g Google information	Brand / Manufacturer Manufacturer code	× ×	
SCI		Product code	ABC123 ~	
501		Distributor code Price code EAN / UPC / UCC-13 Discount code (customers)		
	·J		OK Cancel H	elp

- Click OK
- Click **Finish**

## 2: Apply the "Product Code" to selected products

- Go to the department or page where you want to apply the same "Product Code" (or you can also go to *List of Contents*)

- Click the LIST tab to view all the products or go to ITEMS LIST
- Right-click and select View settings
