You can setup minimum and maximum Total Order values in Global Settings

- Open shop in Shopfactory
- Click Settings menu and select Global Settings
- In the Section marked Set Purchase Price - Minimum and Maximum, specify the Minimum order amount you will accept. If you don't want to set a Maximum enter a large number such as 999999. Then Click the Ok button.

The screenshot shows the 'Global Settings' dialog box. On the left is a tree view with 'Global Settings' expanded, showing 'New Website' and 'Settings for this Website', with 'Shopping Basket' selected under the latter. The main area contains several sections: 'Order format' with dropdowns for 'Select order format' (HTML\_V8) and 'Set delimiter for order attachment' (~), and a checked 'Attach order as file' box. The 'Set purchase price' section is highlighted with a red box and contains two input fields: 'Minimum' with the value 'A\$ 20.00' and 'Maximum' with the value 'A\$ 999,999.00'. Below this is the 'Affiliate Reseller ID' section with a 'Sign up as Affiliate Reseller' button and an empty text field. At the bottom, there is a checkbox for 'Show payment gateway in new window' which is unchecked. At the very bottom are three buttons: 'OK', 'Cancel', and 'Help'.

If I set minimum as \$20 and Maximum as \$999999 and I try to order \$5.00 the following will occur at checkout
