How do I correct my Shop URL / website address in Google XML feed?

Merliza N. - 2021-12-08 - Search Engine Optimization (SEO)

Make sure you have entered the complete website address / correct Publish URL in the Publish SETUP box and Contact Details form.

Note: If you have purchased your own SSL certificate, please enter *https://* instead of *http://* in the homepage and Publish URL fields.

- Open your shop in ShopFactory.
- Click on Publish -> Publish your website on the Net -> click **SETUP** button
- Ensure you have entered the correct PUBLISH URL as shown in the screenshot, i.e. *http://test.shopfactory.com/*

The screenshot shows the 'Setup' wizard window with the following details:

- Wizard Title:** Setup
- Instructions:** This Wizard allows you to quickly publish your Website to the Internet or to your own Computer. Just select the option you require, fill in the details required and then click on the NEXT button.
- Options:**
 - ☒ Internet: Select this option to publish to your Internet account. You must enter your account details so your website can be published properly.
 - Remote Host:** The name of your server or website, such as www.yourserver.com. Do NOT use http:// at the beginning.
 - User Name:** The name you use to log on to your server. Unless you have changed it, it is the one your service provider has given you.
 - Password:** The password to gain access your server.
 - ☐ My Computer
 - Directory:** [Empty field] [Browse...]
- Internet Details:**
 - Remote Host:** webhost.shopfactory.com
 - Protocol:** FTP - File Transfer Protocol
 - Encryption:** Require explicit FTP over TLS
 - User Name:** [Redacted]
 - Password:** [Redacted]
 - Base Directory:** /public_html/ [Browse...]
 - ☒ Passive [bt.access]
 - ☒ Use PHP search ☒ Automatic PHP detection
 - Timeout:** -1
- Publish URL:** http://test.shopfactory.com/ (highlighted with a red box and a red arrow)
- Options:**
 - Rename Website home page to:** index.html

Buttons at the bottom: OK, Cancel, Help.

- Click OK

- Click Close to exit the publish dialog.
- Click on the **Central** dropdown button (formerly known as *Properties*) -> **Contact Details**
- Enter the correct URL at the **HOME PAGE** field, i.e. <http://test.shopfactory.com/>

Page Properties Wizard - Contact

The content of this page will be used to create the address fields in your website and in emails sent to your customers. Make sure to provide all the legally required information for your country.

Country: United States

User profile: SF new build_3d3.com

Name: SF new build

Company name: 3d3.com

Address: test

Suburb: testing

City: test101

State: California

ZIP: 90210

County: Los Angeles

Phone:

Phone (for orders):

Fax:

Fax (for orders):

Email:

Email (for orders):

Home page: <http://www.shopfactory.com>

Custom 1:

Custom 2:

OK Cancel Help

- Click OK
- Save and preview shop in external browser.
- Go back to Normal mode and publish your shop again.

IMPORTANT: After publishing your shop, you will need to generate the Google Base XML file again in Marketeer and then submit the new XML file to Google to fix the problem.

Additional info:

Note that you can also submit the "*sitemap.xml*" file to Google to expedite the indexing of your shop pages:

Submit the *sitemap.xml* file found at *ShopFactory V14 Websites\<shop folder>\Runtime*
