Changing ShopFactory user interface to a different language

Merliza N. - 2022-05-17 - Pagina's en producten

ShopFactory detects the language in your **Control Panel - Regional Format** setting. The language for ShopFactory user interface does not use the "*Location*" setting. It detects the language in the Regional Format (Date and Time Formats).

Changing your ShopFactory user interface language:

- In the Windows Search box (beside the Start button), type **region settings**
- From the 'Best match' search results, select "Region Settings (System Settings)"
- Select the dropdown button in the Region Format
- Select the language you want from the dropdown

Settings		- 🗆 X
ம் Home	Region	
Find a setting	Country or region Netherlands Windows and apps might use your country or region to give you local content. 	Related settings Additional date, time & regional settings
