Display total weight in Order summary and Order Confirmation email

Elenor A. - 2021-11-16 - [Order Management](#)

I want my customers to see the total weight of an order:

- Open your shop in ShopFactory
- In ShopFactory Central page, click MY ORDERS button to open the ShopFactory Cloud interface on your default browser
- Select *My Store -> Shipping Charges* and tick "Show total weight during checkout" checkbox

<https://app.santu.com/buynow/shipping>

The screenshot shows the 'Shipping charges' settings page in the ShopFactory Cloud interface. On the left, a sidebar lists various settings: General, Payment methods accepted, Shipping charges (which is selected and highlighted in blue), Tax settings, Stock control, Customer details, Social media links, Manufacturers management, Keyword management, and Customize design. The main content area is titled 'Shipping charges' and contains a sub-section 'Setting Up Shipping Charges' with a description: 'Here you define how much customers pay for shipping. Set up your own charges or connect to a shipping provider. ShopFactory Cloud will automatically calculate the shipping charges during checkout.' Below this is a 'Set up shipping charges' section. It includes a radio button group for 'Free shipping', 'By weight', 'By number of products', 'By price', and 'By shipping provider'. To the right of the radio buttons are dropdown menus for 'Weight unit' (set to 'kg') and 'Dimension unit' (set to 'cm'). Below these are three checkboxes: 'Allow customers to track orders', 'Allow delivery to a separate shipping address', and 'Show total weight during checkout', which is highlighted with a yellow box. At the top right of the main content area is a blue 'Save: Shipping charges' button.

- Click *Save: Shipping Charges* button on top-right.

Alternatively, you can login to the old GlobeCharge/Total Care interface

- Select **Settings** menu -> **Account Settings**
- Scroll down to the **SETTINGS** section
- Tick **"Show total weight during checkout"** checkbox

Settings

Preferred language:	English
Your time zone:	GMT +00 Britain, Ireland, Portugal, Western Africa GMT
Email (for orders):	test@3d3.com
Settings:	<input checked="" type="checkbox"/> Allow delivery to a separate shipping address <input type="checkbox"/> Show shipping address form <input checked="" type="checkbox"/> Allow customers to add comments to order <input checked="" type="checkbox"/> Express checkout (includes order tracking and customizable checkout) <input checked="" type="checkbox"/> Allow customers to track order <input checked="" type="checkbox"/> Notification email in shop language <input checked="" type="checkbox"/> Show import duty warning during checkout <input checked="" type="checkbox"/> Show service provider name during checkout process <input checked="" type="checkbox"/> Ignore incomplete orders <small>(If customers do not provide payment details to complete their order, then the order will be ignored and no stock will be deducted if you use real-time stock control)</small> <input type="checkbox"/> Payment surcharge (Tax) <input checked="" type="checkbox"/> Show total weight during checkout

- Click **Submit** button to save the changes.
- Go back to Normal mode and then click on Properties -> Shipping charges -> click OK to update the basket page.
- Save and publish your shop again.

*** During checkout, your customers will see the Total Weight field in the Order Summary section.

**** The order confirmation email that customers receive will also display the "Total Weight" field.
