You can setup minimum and maximum Total Order values in Global Settings

- Open shop in Shopfactory

- Click Settings menu and select Global Settings

- In the Section marked Set Purchase Price - Minimum and Maximum, specify the Minimum order amount you will accept. If you don't want to set a Maximum enter a large number such as 999999. Then Click the Ok button.

If I set minimum as $20 and Maximum as $999999 and I try to order $5.00 the following will occur at checkout

⚠ **My cart**   **Products: A$4.45**

Product 2 p2   ~~A$4.55~~ A$4.45 × [1] Calculate   A$4.45 ✕
