How do I use Discounts with Set Time Limit and Repeat options?

Elenor A. - 2021-12-08 - Kortingen

1. From the menu choose Central dropdown => Shop wide Discounts

2. After you have setup your discounts, tick the box "**Use time limit**" as shown in the screenshot below.

Product Wizard - Product 62		×
Product Properties 2 More images Jiscounts Options & choices Specifications Product Shipping Costs	 Here you can set up discounts applying to your product. There are six discount types available. To select them click on the Methods drop down menu. Then enter the discount values. Of course you can also schedule a discount for special times, only. > Discount price: Enter a discounted price for the product. This price will be highlighted to your customers. > Discount percentage: Discount the price of the product by a set percentage. > Buy this quantity free: Give additional products to customers ordering a specified quantity — 	<

- Set the Start and End dates properly

- You have the option to enable "Repeat after" a number of days, weeks or months.

So for example you can repeat the discount every 6 months

You also have an option of How often.

For example I want this to repeat every 6 months 2 times only then i would set it up like this
