EN-Setup PayPal Plus as a payment option in my shop

Merliza N. - 2021-12-08 - Betaalmethodes instellen

PayPal Plus for Germany is now supported in ShopFactory.

1. Setup PayPal Plus merchant account

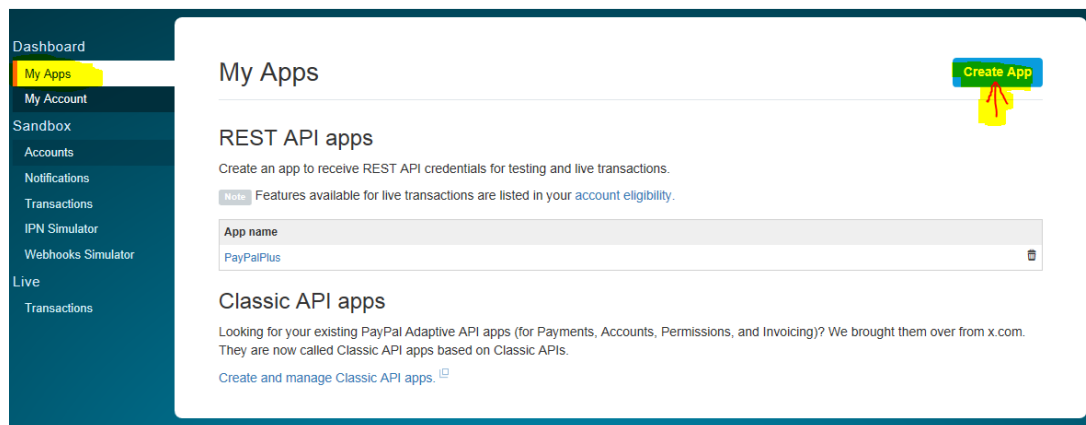

To get a PayPal Plus merchant account, you need to sign in to PayPal developer account.

- Log in at <https://developer.paypal.com/>

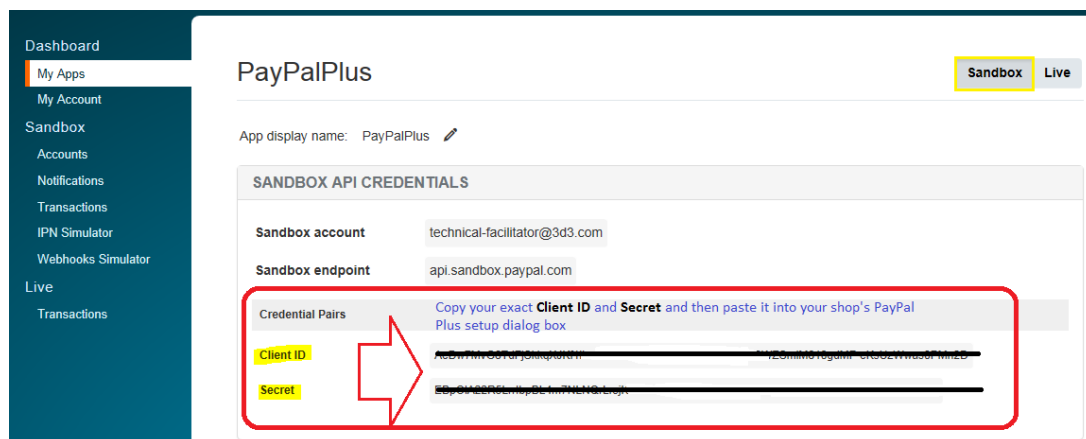

- Go to **DASHBOARD** -> **My Apps**

- Click on the "Create App" button if you don't have one yet to be able to get the credential pair:

Client ID and **Secret**

Once the app has been created, click on the specific App name to view your **Client ID** and **Secret** details -

Basically, your account must be tested on Sandbox first. Once it's all ok - you can switch to live (just change to **live** credential pair in My Apps page).

****You may need to copy the Client ID and Secret details for the live environment and paste the details into your shop's payment setup dialog for PayPal Plus.*

2. Enable 'PayPal Plus' in your shop

- Open your shop in ShopFactory
- Click on Central dropdown -> Payment methods accepted
- Tick "PayPal Plus"
- Click Next
- Enter your PayPal Plus merchant account details as requested:
 - Client ID
 - Secret
 - Tick Sandbox if account is still in Test mode
 - Set currency you accept
 - Tick 'PayPal Plus' under payment method

The screenshot shows the 'PayPal Plus' setup dialog. On the left, there are instructions: 'Enter your PayPal Plus merchant account.', 'Tick "Sandbox" if your account is in Test mode.', 'Select the supported currency i.e. Euro', and 'Tick "PayPal Plus" under payment method'. A red arrow points from the 'Sandbox' instruction to the 'Test (Sandbox):' checkbox, which is checked. A large white arrow points from the 'Select the supported currency' instruction to the 'Currency' dropdown menu, which is set to 'Euro (EUR) Euro'. The 'Client ID' and 'Secret' fields are highlighted in yellow. The 'Payment method' section at the bottom has 'PayPal Plus' selected with a checkbox. A 'Set currencies' button is located below the currency dropdown.
